Vented Gas Logs

AMERICAN HEARTH

Elite Radiant Vented Burners

The Elite Radiant Vented Burners deliver more heat to your room and more flames to your fireplace. With their unique construction and integrated radiant fiber heat sink, these burners produce dancing flames without using sand or vermiculite. Feel more heat radiate back into your room, all while using less fuel than a standard vented burner.

Features

- 18-inch (33,000 BTU)
- 24-inch (55,000 BTU)
- 30-inch (65,000 BTU)

Options & Accssories

- Match Light

Treehouse 7 (LTH7) Refractory Log Set

Great Lakes Oak (LGLO) Refractory Log Set

Slope Glaze Vented Burners

A vented gas log set makes a great alternative to the hassle of building a log fire in your wood-burning fireplace. Just like a wood fire, a vented gas log set provides plenty of mesmerizing flames and flickering light. And when you are ready for bed, just flick the switch to turn it off – no waiting for the embers to die down. Vented log sets are considered decorative systems and must be installed in a vented fireplace with the damper open and may not operate by thermostat.

- Available in LP and Natural Gas in 18, 24, and 30-inch models - up to 75,000 BTUs
- Choose from log sets in ceramic fiber, refractory concrete, and Burncrete®

Super Stacked Wildwood Refractory Log Set (LS24WRS)

Driftwood Burncrete® Log Set (LS24CD)

Williamsburg Refractory Log Set (ALS18CR2)

Ravenwood Select Log Set (ALS24RVS)
