Meridian Gas Fireplace Guide

MAJESTIC

Create an Inviting Place Where the Best Moments Begin

The Meridian Series is designed around the idea that a great fireplace needs to do more than one thing well. Heat, ambiance, design, and technology are considered together – not traded off. Modern elegance is here.

What Comes Standard

Two Sizes: 36" or 42" width

Effortless Operation: Electronic ignition, smart-home options, and a range of optional upgrades that give you total control of the fire

Design Flexibility: Multiple fronts, interior panels and log styles to match your home's aesthetic

Three Great Options

Meridian: Choose from brick-style interiors or black glass, paired with hand-painted Oak or Birch logs. Driftwood logs and natural stone are also available.

Meridian Platinum: Takes the experience further with an LED ember bed and backlighting, creating deeper, richer ambiance.

Meridian Modern: For a more contemporary look, select from black glass interior panels, and driftwood logs or natural stones.

Shown on front: Meridian Platinum 42" fireplace with Tavern Brown traditional interior panel, Oak logs and Manor front

Meridian 36" fireplace with Oak logs and Essence front

Meridian Traditional

Meridian Platinum 42" fireplace with Tranquil Greige herringbone interior panels, Birch Logs and Ensemble front

Efficiencies

EnerGuide (CSA P.4.1-15) Ratings used in Canada and some U.S states to measure annual fireplace efficiency.

UNIT	NG	LP
Meridian 36	58.3%	59%
Meridian 36 Platinum	64.3%	64.3%
Meridian 36 Modern	54.6%	NA

UNIT	NG	LP
Meridian 42	63.2%	60.4%
Meridian 42 Platinum	57.4%	58.4%
Meridian 42 Modern	56.4%	NA

Controls

Whether it's the IntelliFire® app that lets you start the fire from your phone (even when you're not home), a sleek touchscreen remote that gives you easy access to flame height and fan speed, or a simple wall switch for quick on-off convenience, there's an option that fits your life.

INTELLIFIRE APP

WIRELESS WALL SWITCH

TOUCHSCREEN REMOTE

Technologies

INTELLIFIRE TOUCH® IGNITION SYSTEM

IntelliFire Touch is an advanced intermittent pilot ignition (IPI) system that makes starting and controlling your fireplace simple, safe and reliable. Applies to all control types (app, wall switch and touchscreen remote).

DIRECT VENT TECHNOLOGY

Direct vent fireplaces are sealed systems that pull fresh air from outside and send 100% of combustion exhaust back outdoors. That means no fumes enter your home. The result is efficient heating, better energy use and cleaner indoor air quality.

BATTERY BACK UP

Light your fire with no power! Each model is equipped with a battery backup solution that allows the fireplace to ignite when the power goes out.

Heat Management Solutions

Available on all models.

PASSIVE HEAT

Disperse heat naturally (no fan) into the room, lowering surface temperatures so you can place a TV or artwork just 12" above the fireplace. Choose side, front or open-wall registers. Mantel required.

Side Register

Front Register

Open-wall Register

HEAT-ZONE® TECHNOLOGY

Draw heat from your fireplace to another room in your home. Redirect up to 50% of the heat, while reducing wall temperatures above the fireplace.

HEAT-OUT® TECHNOLOGY

Draw heat from your fireplace and direct it outside. Redirect up to 40% of the heat while reducing wall temperatures above the fireplace.
