

Superior
FIREPLACES®

The new *Nature-Flame Series* features a unique pan burner with random flames and a flickering ember bed to achieve the look of a real wood fire. The result is a striking appearance with a distinctly unique flame pattern.

Hand crafted logs with high-definition bark and split wood details create the essence of authentic firewood.

- On-Off & 3 Flame Heights
- Weekday/Weekend Modes
- Wall Mount Docking Station
- Years of Stable Performance

Two distinct log styles each available in 18", 24" & 30" variations

Granite Ridge

Silverstone Timber

The **Granite Ridge** is crafted in casted refractory and embodies a stunningly realistic recreation of natural wood, combining durability with unmatched visual authenticity.

The logs work perfectly with the Nature-Flame burner to pull together the glow of the embers and the warmth of the dancing flame.

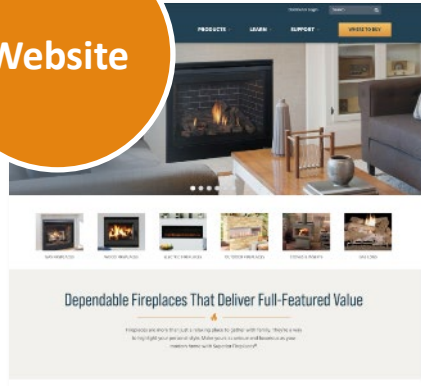

The **Silverstone Timber** is crafted in a high-definition refractory specifically formulated to capture the highest amount of detail.

Each log is meticulously sculpted to capture the intricate grain patterns, knots, and textures of real timber, down to the finest crevice and split. The high-detail casting process ensures that no element is overlooked, offering a tactile, lifelike presence that elevates the entire display which is enhanced by expertly applied, multi-tone hand-painted finishes that mimic the subtle color variations found in aged, fire-kissed wood.
